Objective of BBM

BBM in Tourism, Aviation & Hospitality

Time changes and so does thought processes. Nothing seems grandeur and productive unless an initiative taken has a noble task instilled into it. Keeping this conviction in mind, it takes immense pride to “REDEFINE” conventional BBM in Tourism, Aviation and Hospitality to broaden the scope of employment in the industry. This application oriented program emphasizes not only on the subject related courses but at the same time paves the path towards the overall development of the students. Keeping this ideology in mind therefore, it is imperative that the industry diversification reflect upon the education that is imparted to the students. Hence, the importance of bringing in certain changes with regard to the syllabus has been found mandatory.

Considerations have been made to enhance the quality of education. Several subjects have been added in the new syllabus like Principles of Travel and Tourism and Communication & Presentation – Paper 2. These subjects aim to provide more knowledge and improve the communication of students. Other subjects like Persona Management, Soft Skills and Personality Development, Principles of Aviation, Language Enhancement, Business Economics and Hospitality Management subjects have been modified with the same motive.

The new syllabus has been formulated with the hope that it will, not only, result in knowledge enhancement but also motivate the students to add a glimpse of success to one’s career. For Detailed syllabus click here

		200	20

Total Credit :120

Full marks : 1200

WHY BBM?

What sets Avlon Shiksha Niketan apart from others, lies in its perspective of a teaching curriculum beyond the conventional mode of commercial BBM.

The typical subjects like accounting, finance, statistics, economics, theories gets a newer look by introducing program oriented subjects based on Tourism, Aviation and Hospitality thereby, broadening the scopes and horizons of the stereotypical notion of what we know as Bachelor in Business Management.

BBM in Tourism, Aviation and Hospitality imparts education by developing not only through skills, theories and practical knowledge but also emphasises on the overall growth of the development of an individual as a professional with skills.

Currently the tourism being on the skeletal development in this region it will take time to have the fully operational set up. Meanwhile we have BBM as an answer to utilize the time in giving the necessary skills to youth to be equipped for tomorrow which is not far away.

SERVICE INDUSTRY

TOURISM

AVIATION

HOSPITALIT

TOURISM

- ❖ India is forecast to be one of the fastest growing tourism economies in the world over the next decade, as reported by World Travel Tourism Council (WTTC). It also reported that, India will add nearly 10 million jobs in the tourism sector by 2028 and the total number of jobs dependent directly or indirectly on the travel & tourism industry will increase from 42.9 million in 2018 to 52.3 million in 2028.

AVIATION

- ❖ **The civil aviation industry in India has emerged as one of the fastest growing industries in the country during the last three years. India is currently considered the third largest domestic civil aviation market in the world. India is expected to become the world's largest domestic civil aviation market in the next 10 to 15 years. India is also expected to displace the UK to become the third largest air passenger market by 2025.**

HOSPITALITY

- ❖ The hospitality industry in India is experiencing exponential growth bringing with it an influx of job openings and possibilities of tremendous economic growth. There are as many as 2.40 million people working in hotel, catering and allied industries in India. This number is only bound to increase with the advent of more and more skilled candidates entering the industry through trained courses.
